SPECIES IDENTIFICATION BY NGS TEST RESULTS

AUTHENTICITY REPORT

Alerts	Ingredients	DNA Presence	Organism Group	Species Found	Quantification*
	Pork	Expected	Pork	Pork (<i>Sus scrofa</i>)	Major
	Sheep Casing	Expected	Lamb	Lamb (<i>Ovis aries</i>)	Trace
 Unexpected				White mustard (<i>Sinapis alba</i>)	Minor
 Unexpected				Cilantro (<i>Coriandrum sativum</i>)	Minor
 Toxigenic Fungi				<i>Fusarium</i>	Presence

* Presence level is determined based on DNA signal and can not be extended to mass-based composition. Quantification thresholds are: Trace up to 2%, Minor up to 10%, Major more than 10% of plants and animals DNA signal.

Results relate only to the submitted sample. Clear Labs makes no claim about the other portions of this commodity/lot.

Presence level is determined based on DNA signal and can not be extended to mass-based composition.

Results are based on existing knowledge database and are subject to adjustments over time. The report should not be reproduced except in full without written approval of Clear Labs.
